

Series Mini

Cabinet sliding door system

Maximum door panel weight of 25kg.

Bottom Rolling

Full technical support

Hassle free door solution

Suited to 14-44mm thick doors

Durable sliding system

The Series Mini is a bottom rolling, small and durable sliding door system designed for cabinets, cupboard doors and domestic wardrobes.

Featuring a wide selection of rollers and different profiled tracks in white and brown PVC, Series Mini is a truly versatile and practical system.

Series Mini has multiple tracks that can be placed in front of each other to create bypassing doors.
