SLIDING SYSTEMS

Evo Pocket Door Kit

Single or double pocket door system

The Evo Pocket door system suits both 100 and 125 mm walls. It is completely adjustable, smooth rolling and can create additional space in any room.

The Evo kit sub frame for plasterboard walls offers great advantage: convenience, simplified maintenance. The Evo is to be finished using architrave around the door frame.

- Maximum door panel weight of 120kg.
- Featuring high quality components
- Guaranteed up to 100,000 cycles
- Full technical support
- Optional soft-close
- Runners Lifetime warranty*
- Smooth sliding action when operating

Components

Easy to construct hot-dip galvanised slat panel frame

Door roller kit

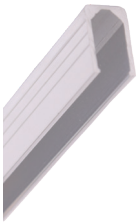
Door guide

Door stop

Rubber stopper

Optional accessories

Soft-close



1m Under guide

Push to open buffer

Push to open buffer to be installed at the rear of the pocket door to aid the closing of the door with its spring pistons.

The Runners Lifetime Guarantee covers the Evo for 3years from purchase date, this covers normal use of the products in a domestic environment, for commercial environments our standard 12-month guarantee would apply. Please contact our customer service team for more information.
